

Did you know?

Your child can use their RSU #20 G Suite login to access even more programs!

It's true! Many websites, including websites that your child uses at their school, can be accessed using the same login that they use for G Suite, meaning that there's no need to manage multiple usernames and passwords!

Examples of services that are used in RSU #20 with G Suite logins include:

		
Newsela www.newsela.com	Khan Academy www.khanacademy.org	SeeSaw app.seesaw.me

Once you're on the page you want, just look for a Google symbol on that site's login page. It should look something like this:

Then enter your G Suite login, and you're in!
